Student Highlight

HAILIE

Hailie is a junior at Oakland High School this year. Hailie has always been extremely involved with CIS, she was involved with CIS of the Coastal Bend in Texas, and after moving to Washington, became involved with our affiliate. Despite Hailie's years of involvement with CIS, COVID made joining clubs in a virtual setting difficult.

Last week, we received the news that we could resume after school clubs and activities, and Hailie has jumped right back into the swing of things joining both art club, as well as community service club. After over a year of attempting to run clubs virtually, we are finally able to see the light at the end of the tunnel to be able to provide services in person.

Hailie is a joy to be around, she is resilient, strong, and motivated. Despite adversity, Hailie continues to push through. We know her future is bright, and are so thankful to have her in the CIS family.

Updates from Oakland

STUDENTS RETURNED TO BUILDING

We have been overjoyed to be able to welcome students back to the building after a long, difficult year full of isolation and worry. If there is one thing we have learned, it is that our students are remarkably resilient. Through this last year, the students at Oakland, and students all over the world have had to adapt to unforeseeable circumstances.

Many of our students have complex lives at home, some help to take care of younger siblings while parents are at work, while other students might be experiencing homelessness. Through the last year we grew closer to not only our students, but their parents as well, reaching out to them weekly to ensure that they had the support that they needed. Needless to say, we are grateful for students returning to the building, and the returning sense of normalcy.
